

In a Manor House
somewhere in
London (Ealing)
lived a princess...

Vo ubava kuka
nekade vo London
(Ealing) si ziveela
edna princeza....

Uuuups, that is
another story, this
one is about me.
This is the quarter of
this amazing
Georgian house
where I live.

No toa e druga
prikazna, a ovaa sto
sleduva e za mene.
Ova e delot od
Gregorijanskata
kuka vo koja ziveam
sega.

Actually this is a story about what I have been doing in the last three months and how I have transformed this...

Vsusednost ova e prikazna za toa so sto se zanimavav poslednive tri meseci i kako ova go pretvoriv....

...into this. You are looking at my new living room in which I have the kitchen as well before I continue with refurbishment next year.

...vo ova. Ja gledate mojata nova dnevna soba vo koja ke stoi i kujnata se dodeka ne ja premestam pri slednoto renoviranje.

This was the kitchen
before....

Ova bese kujnata
prethodno....

And now after
knocking one
wall down...

I sega, otkako
urnavme
eden dzid...

The kitchen in its' full glory will move to the extension that I will be building next spring on the roof terrace....

Kujnata ke odi vo dogradbata koja slednata prolet ke ja gradam na krovната terasa....

...which currently looks like this.

.....koja sega vo momentov izgleda vaka.

The bathroom now.
Still waiting for my
“special” lights from
Macedonia.

Banjata sega. Se uste
cekam da mi stignat
“specijalnite”svetla
od Makedonija.

And how it was
before.

I prethodno.

....I changed everything plus put insulation and under floor heating so now it is nice and warm.

....ne samo sto smeniv se tuku staviv izolacija i podno greenje i konecno e toplo.

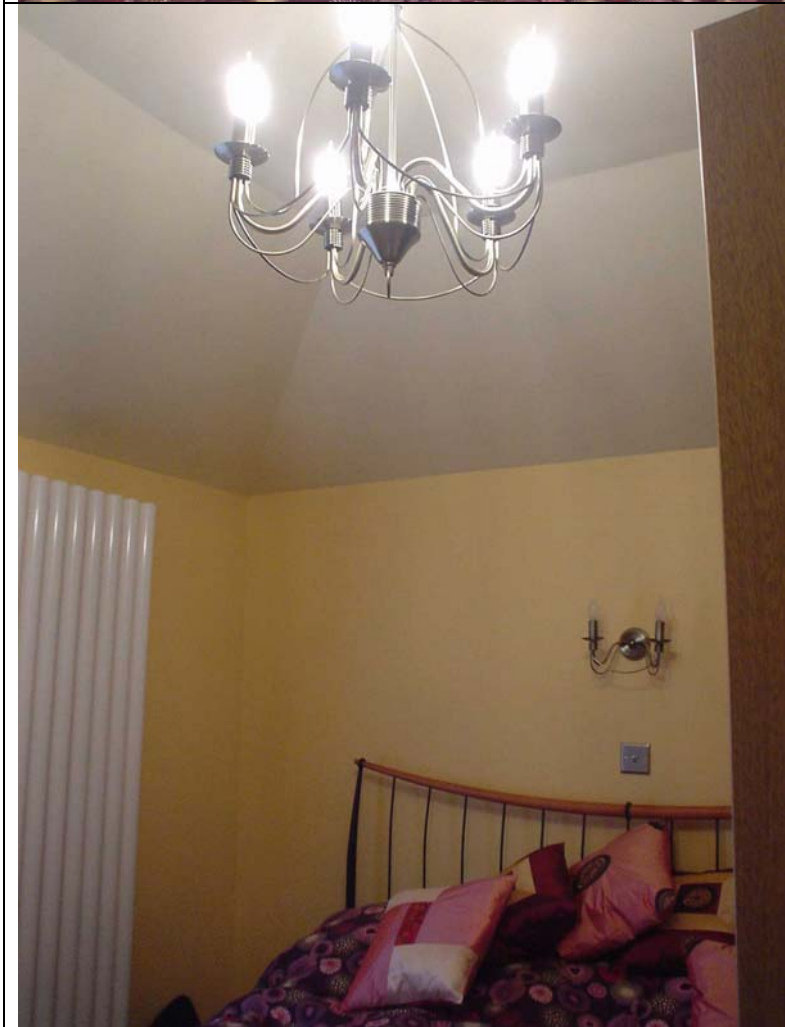

The bedroom before...

Spalnata pred renoviranjeto....

...and my boudoir
now....

...I mojot budoar
sega...

I had to raise the
ceiling for 40 cm
and that was not an
easy job. Planning to
raise the ceiling for
120cm in the living
room next year. I
think high ceilings
are worth the effort.

Morav da go krenam
tavanot za 40cm sto
ne bese lesno.
Planiram da go
krenam tavanot vo
dnevnata za 120cm
slednata godina.
Mislam deka vredi
naporot bidejki
sakam visoki tavani.

The team and the happy customer. I invited my two main builders for lunch, Pavlin on the right did the construction work, raised the ceiling, fitted the kitchen, made the walls perfect. I am very happy with his professional work. My Dad was managing the project and my Mom is the architect behind it.

Timot i zadovolnata musterika. Gi pokaniv dvajcata glavni majstori na rucek. Pavlin (desno) i Ice (levo) gi napravija gradeznite raboti, go krenaa krovot, napravija sovrсени dzidovi...tako mi bese menadzer na proektot, a majka mi arhitekt.

View from my living room...it changes every day...I am not sure what happened to the princess but I am living here happily ever after...till next spring when I am starting the second phase of the refurbishment

Pogled od dnevnata soba...se menuva sekoj den...ne sum sigurna sto se slucilo so princezata, no jas si ziveam ovde srečna i zadovolna...se do slednata prolet koga pocnuvam so renoviranje na vtorata faza.
